

Pre-Conference Workshop
Thursday, March 9 8:00 – 5:00 pm
\$125 - Lunch provided

Challenging Behaviors: Working with Individuals who have Brain Injury, Stroke and Other Neurological Changes

The pre-conference will open the 15th Annual Pacific Northwest Conference featuring keynote and general session workshops and more than 40 exhibitors.

March 9: How to Work with Challenging Behaviors after Brain Injury, Stroke & Neurological Changes will be an entire day with experts devoted to effective ways of working with individuals with brain injury and Neurological Diagnosis and best practices being used. Including **Behavior Management Strategies for Caregivers dealing with Challenging Behaviors from individuals diagnosed with Neurological Diagnosis** - Experts will share "tricks of the trade" that they have learned over the many years of working with severe behavioral issues in clients and how, over time, they are able to have successful positive outcomes using music, dance, art and physical activities.

March 10-11: Living with Brain Injury, Stroke and other Neurological Changes: Embracing the Journey will feature: **Veterans and TBI/PTSD**-Cameron Smith, Director, ODVA, **The End of Caring: Understanding the Dynamic of Failure in Rehab** - Rolf B. Gainer, PhD, **Functional Neurological Management of Persistent Post-Concussion Syndrome**-Dr. Glen Zielinski, DC, DACNB, FACFN, **Roadblocks to Re-entry: The Triple Whammy of Brain Injury, Psychiatric Disorders and Substance Abuse**-Rolf B. Gainer, PhD. **Presentations: The Medical Perspective of TBI**- James Chesnutt, MD, **The Veteran in Crisis, Brain Injury and Other Traumas**-Scott Bloom, CBIS, **PROVING DAMAGES** - Richard H. Adler, JD, Jacob Gent, JD, Steven Angles, JD, Melissa D. Carter, JD and Arthur D. Leritz, JD, **Heal Your Brain, Heal Your Body**-Linda Gifford, **Practical Applications for Behavioral Health Clinicians** - Dan Overton, MC, LMHC, MHP, **The Developing Adolescent Brain: How THC affects the Brain**. Shelley Campbell, RN, **TBI and Psychiatric Illness: A Common Thread of Neuroinflammation** - Shauna Hahn, PMHNP, **TBI Induced Vision Problems**-Juliet Machado, BA, **Life After Brain Injury-The New Road Taken**-Jacob Pasker, DC, **What are the needs of individuals over 50 in Idaho**- Russell C. Spearman M.E, **Embracing the Journey** - Dr. George Siegfried, D.C., **Washington State's Traumatic Brain Injury Advisory Council: A history and the positive impact on the brain injury community**-Scott Bloom, CBIS, **Managing Emotional and Behavioral Disturbances after TBI**-Kendra Ward, COTA/L, **A Holistic Approach to Healing Broken Brains:Nutrition, Supplements and Herbs Patient** - Dr. Adam Grove, ND

Learning Objectives

At the completion of the conference, participants will be able to:

1. Implement strategies designed to significantly improve positive outcomes for those living with brain injury and neurological conditions in all communities.
2. Summarize recent brain injury-related research with corresponding practical application and best practices.
3. Identify clinical management practices, specifically new strategies in behavioral management, prevention, diagnosis, and treatment guidelines.
4. Understand health care delivery trends and their impact on long-term brain injury and neurological conditions management, acute care, and what that can/will mean to your business.
5. Analyze past brain injury and neurological conditions - related interventions and weigh their value in today's world- what is working.
6. To understand brain injury as a chronic disease which affects the person throughout their lifetime
7. To consider co-morbid conditions which affect the process of aging with a brain injury
8. To understand the accelerated process of aging related to people living with a brain injury
9. Create networking opportunities and build partnerships with key brain injury researchers, clinicians, and prevention professionals.

All Sessions will be recorded and available for purchase at the conference by Backcountry Recording
